Glenn Yeakel from Friar Architects gave a presentation of the completed Facility Study. He gave a synopsis of the current state of the building, rating each area of the building on a scale of 1 (poor) to 4 (good). He also presented the building's code compliance ratings. Mr. Yeakel presented cost estimates for the proposed work in the study as well as potential educational enhancements that could be done to the building. The Board was in agreement that the assessment data of the building will be useful in preparing capital improvement plan but that any proposals or plans for educational enhancements would require much further discussion.
