

The Sherman School June 24, 2021 Addendum #2

Question June 24, 2021 at 3:50:02 PM EDT

1. There's a few areas where the existing flashing tucks up under a counter flashing at a brick wall. Are we removing the brick and installing a new through-wall flashing, or providing a new reglet counterflashing? Ref the attached photos

Answer

Reuse existing through wall counterflashing.
