Happening at The Sherman School

› Patriot Day & Citizenship Week

Since the start of last week, The Sherman School has been commemorating the 20th anniversary of 9/11 and Citizenship Week. During the week, students and teachers have been discussing ways we can make a difference in they world. As a school, we also focused on spreading kindness by recognizing kind acts across the school day. Lastly, the students learned about first responders and the impact their work has had on our lives. Each student was given a star to recognize and thank a hero in their lives. The stars are proudly decorating the halls of The Sherman School. It is incredible to see so many Sherman heroes!

› Teacher of the Year - The Sherman School Teachers

Last June, ALL of our teachers were collectively selected as The Sherman School's 2020-2021 Teacher of the Year. To appropriately recognize and appreciate each of our

amazon educators, we will be celebrating one teacher for each full week of school this year.

Week 1: Ms. Krysti Toth - PreK
